Summer Favorites

IT'S ALWAYS THE DETAILS WHICH CREATE
A TREND, A LOOK.

We dedicate this summer collection to the 4 Elements which determine more than we might guess, our attitude towards life. Air, Water, Earth and Fire characterize temperaments, as well as express our fashion sense. Being here is the question: I am a water-type, because I like blue? I belong to the "Air"-people, because I prefer to wrap up in "a touch of nothing"? So many questions? You can only find answers yourselves. Enjoy the 4 elements with a smile in this summer's hand-knitting projects and ask yourself when you are choosing your "favorites", if the color with a lot of light or the style has inspired you? We wish you a happy summer full of spirituality and joy!

combination of fashion, shopping and social site which creates your exceptional style.

It's the end of stylistic stopgap. With Zizzar you are able to try and fit clothes before you buy them. You are able to see your clothes on your own virtual avatar based on your size and shape rather than on an abstract model.

After you are registered you create your own virtual avatar fitting your size! From this moment you can try on all the clothes available in our site without leaving your home. And everything in our helpful virtual stylist's assistance. You can experiment with make-up, match it with your clothing and then show the effect in the showroom – social part of our site.

Zizzar.pl is the first website of this kind in Europe. It is based on three components: dressing room, showroom and make-up.

- In the dressing room, after choosing your size, you can use your generated virtual avatar. You can try all the available clothes on. Furthermore, after putting on chosen clothes, you can turn your virtual avatar by 360° and see if it fits from all sides.
- In the showroom, you can share your style with other users, be rated and get a tip on how to fit clothes to your body type.
- Make-up will allow you to choose a matching hairstyle and make-up for your style. With our tools you can put a make-up on using a photo of your face and then transfer the whole work on your avatar.

Zizzar.pl suggests where you can buy the clothes and cosmetics used during the creation of your dream style.

Zizzar.pl – wear it perfect! – starting mid-May!

SILKHAIR

Inspired by Africa

Earth and Savannah tones, orange and sunshine yellow - these are the lush, intensive colors which mirror Africa. The very special light of the dark continent brings luminosity to the fantastic reds, glowing in all gradations of shade from ocre to tile, to warm brown tones.

It is these colors, above all, which permeate the current Ethno trend.

Indeed, textile traditions also have an influence on the designs. The inspirations here come from African woven art: Stripes, geometrical decoration and zigzag lines, as they have decorated blankets, cloth and fabrics for the most different African people for centuries.

The exotic impression is created from these elements. Homesickness and longing for the source are included. The matching styling incorporates these associations: Jewelry from natural materials such as horn and wood, traditional clothing with a modern interpretation such as Sarouel trousers with a low crotch or wide, baggy trousers, shawls and tunics perfect the look. But it is never about imitating authentic African clothing. The richness of the artisan crafts of this continent is used in a playful way, simply in order to create beautiful garments. The exotic magic of Africa enriches the European tradition of knitting through and through.

It is this openness for the strange and exotic, the carefree together with European influences, modern materials and traditional knitting techniques combined which make this fashion so exciting. And the treasure which is created from this trend is the variety and richness of handicrafts from Africa and the whole world.
